	Number of Students
Total	10
Submitted	8
Not Submitted	2
Average	96.31
Standard deviation	4.49

Comments

- Several students could not answer correctly for the question about V&V verification regarding comparison of 1st and 2nd order schemes.
- Some of students made mistakes when they calculate the lift & drag coefficient.
- Some of students could not report required figure or Data Table.
- A few of students missed some of sub questions and submit the report without conclusion.
