

Quiz 11 Report

11/18/2022

1. Summary

Total number of students	7
Attended	7
Missed	0
Average grade	9.36
Standard deviation of grades	0.94

2. Comments

- All the students managed to calculate the Re number correctly for both cases
- Two students made a mistake in the evaluation of the Drag force, considering both sides of the plate, but not using the $\frac{1}{2}$ factor present in the Drag formula
- One student obtained the correct Re number for (b), but used turbulent flow formula for Drag
