

Quiz 1 Report

9/11/2020

1. Summary

Total number of students	10
Attended	10
Missed	0
Average grade	8.25
Standard deviation of grades	1.83

2. Comments

- Some students could not differentiate the velocity profile and interpolated it to calculate the wall shear stress which is wrong.
- 2 students used degree unit where it actually need to be considered with radian unit.
- Some of students made simple mistakes but the overall process was correct.
