

# Quiz 1 Report

9/13/2019

## 1. Summary

Total number of students	14
Attended	13
Missed	1
Average grade	6.77
Standard deviation of grades	1.83

## 2. Comments

- Some of students made mistakes when they differentiated the given Velocity profile.
- 5 students did not differentiate the given velocity profile, and some of tried integration of the velocity profile
- Some of students used wrong surface area to get the Drag Force
- One student missed ' $\pi$ ' to get the surface area,
- The Drag Force should be calculated by multiplying the surface area and the Pressure, but one student divided the pressure by the area to get Force.
