

# Quiz 5 Report

10/3/2022

## 1. Summary

Total number of students	7
Attended	7
Missed	0
Average grade	8.07
Standard deviation of grades	1.62

## 2. Comments

- Two students did not neglect gravity acceleration in x-direction
- Three students could not obtain an expression for the shear stress
- Two students did not divide by  $\mu$  to isolate  $\frac{\partial^2 u}{\partial y^2}=0$ , obtaining wrong values for the constant values ( $c_1, c_2$ ) in both velocity fields.
